F. M. Pfeiffer Esq:

Submit the following report for Wednesday the 22d day of Sept. 1926.

I can say there were no witness examined today things very quiet here.

While having dinner at Somerset Hotel at noon and my table being next to reporters in fact two sat at table I was, one being Grant Robinson reporter on Daily News or rather Mirror. I learned their impression is S. will try W. S. first as he is going to make him the goat, owing as I have heard is weak minded and if convicted would be sent to an asylum.

On good information and brief the papers stating some 47 witnesses is "punk", further public sentiment is not overly strong against the Defts., have in many ways over heard things which looks to the purely press work and playing a strong bluff hand for the public and am sure my statement will be true when they go to the bat, they have not got the stuff they claim.

Over heard a party who was talking to Mr Kelley "Surrogate" there will no doubt be some of state witness go to jail for perjury; no one pays any attention to me so far as I am in and out of court so much and further do not mention case to any one only when they talk to me, all I know is what I read in the papers and am not interested, (is my answer) when asked.

Will leave for Jersey City Friday, if nothing happens here, as I hear Reporters will learn Friday from their talk with Mr. Levy of Hotel Somerset, one or two told him when their day fixed up Thursday evening.
